

Ralph Lauren Onsite Care Clinic

in partnership with Wake Forest Baptist Health

COVID-19 Vaccine Clinic Frequently Asked Questions

Will I receive the vaccine on the clock/be paid for travel time, if applicable?

If your appointment is during your scheduled work time, you can remain on the clock. It is anticipated that your travel plus appointment should take about an hour and employees are expected to go directly to the vaccine clinic and back to work. Employees will not otherwise be paid for the appointment time. Employees leaving the clinic for the day can be clocked out from the clinic.

What happens if I experience symptoms/side effects post vaccination?

While symptoms and/or side effects post vaccination are usually mild and do not require medical attention, we recommend listening to your body and if you feel your symptoms need examination, please promptly schedule an appointment at your local Onsite Care by calling (336) 893 – 0013. For Ralph Lauren employees who feel they are unable to return to work or feel uncomfortable doing so after the vaccination, you may use PTO or take the time away from work as unpaid.

Do I have to take the vaccine?

No, while we are thrilled to make this opportunity for onsite vaccinations available to our teams on the NC Campus and Adecco, the vaccine is NOT mandatory.

Can my dependent also get their vaccine?

If there are additional vaccinations appointments available we will re-open the sign up to Ralph Lauren employee dependents. Dependents must be eligible based on the following criteria to make an appointment:

1. Must be in qualifying category
2. Must be at least 18 years of age
3. Must be able to arrive at vaccination location independent of the Ralph Lauren employees in order to adhere to social distancing guidelines
4. Must provide ID

What if I've already received one of my vaccines? Can I get my second vaccine at this event?

No, you must receive your second vaccine from the same health care provider that you received the first one from.

Which vaccine will I be receiving?

This clinic will be offering the Pfizer vaccine.

When is my second vaccine appointment?

The second vaccine will be on Thursday, April 29. You must be available on this date as well to receive your first vaccine.
